### European School Has Become a Friend of Microsoft

A memorandum of understanding was drawn up between European School and corporation Microsoft on June 1. Parties undertake the obligations to support the implementation and availability of digital technologies and innovative projects for the students and teachers of European School.

Within the frameworks of mentioned agreement school will receive the latest software of Microsoft, cloud services and relevant consumer access right. Microsoft considers European School as a platform of new, innovative and worldwide project that will support the development of pupils in the field of technological sciences. It also provides the introduction of online and remote teaching methods. European School is the first general education institution in the country which starts direct cooperation of Microsoft in such scales.

After the memorandum comes into effect Microsoft as a partner company will support European School to receive the latest and safest technologies, participate into the important educational programs, ensure the
