

Press Release

Trainings for "Labor Safety and Health Care" were conducted by "SafCo" trainers in "Saknakhshiri GIG"

The company "Saknakhshiri" Tkibuli together with company "SafCo" conducted training on "labor safety and health care" issues in Tkibuli. "SafCo" has a group of trainers with international qualifications and certifications, with long working and training experience. Training courses provided by "SafCo" are based on internationally accredited trainings and best practices in the world; each course is developed and adapted in detail for the existing

market in the country. The topics were diverse: health care and labor safety management systems, risks assessment, threats at the workplace and their control. "Saknakhshiri" plans to cooperate with SafCo in the future as well."

-----Founded in April 2006, "Saknakhshiri" (GIG) Ltd is wholly owned by GIG with the operations focused on coal mining activities, including coal extraction and enrichment. A sole owner of economically important coal mining assets, Saknakhshiri is a premier coal mining company in Georgia and only provider of locally mined coal. Dzidziguri and Mendeli mines, where current operations are taking place, represent the key production assets.

The company owns a coal reserve amounted to 331 million tons in Tkibuli-Shaori region, while in Vale mineshafts (currently the mine is shut down), Saknakhshiri owns brown coal reserves of 76 million tons.
