

Press Release

The Best Electric-Engineers of GIEC: Archil Forchkhidze and Bedan Avaliani

Levan Vefkhvadze, general director of Georgian International Energy Corporation awarded the outstanding experts of the Thermal Department. **Bedan Avaliani** is a sixth grade technician of the Repair Service. He has been working in the company for years and performs his job in a professional manner.

Bedan Avaliani was nominated as the best employee based on the decision of his colleagues and the management. This title was also awarded to **Achiko Forchkhidze**, a IV grade electrical technician of Electrical Service. He has been working in this position since October, 2012.

He participated in the processes of implementation of new technologies (SCADA Project; installation and commissioning of automated regulator of generator exciter; installation and commissioning of digital measurement equipment, etc.). On the initiative of Georgian International Energy Corporation not a few outstanding experts have been already revealed in different enterprises

"Georgian International Energy Corporation" (GIEC) was established in July 2005. Today it holds 100% of shares of GIG. GIEC's main strategic business unit includes the production and sale of natural gas. At present, GIEC operates 8 small hydroelectric PowerStation in Georgia and thermal PowerStation of strategic importance, which is located in Gardabani region and provides significant energy reserves. David Bezhuashvili is the founder of Georgian Industrial Group
